

Yorkville Battery Inc. Labor Fee Structure

Base Shop Labor Rate: \$75 per hour.

Specialized In-Shop Fees With Battery Purchase:

- **Wheel Removal Fee:**
 - \$50 (minimum, applies when battery access requires wheel removal).
- **Difficult Access Fee:**
 - If the battery location requires extensive disassembly of other parts, or is otherwise hard to reach. ½ hour and under \$25. Up to one hour \$50. Over an hour base labor rate applies.
- **Complex Wiring/Installation Fee:**
 - This applies when the install requires custom wiring, or is difficult to install because of the location of the battery, or the amount of wiring needed. Base labor rate applies.
- **BMS Reset Fee:**
 - **Basic BMS Reset (Software/Simple Configuration):** \$20.
 - **Advanced BMS Reset/Troubleshooting (Diagnostics/Complex Configuration):** \$50 and up.
- **High-Voltage Battery System Fee:**
 - Minimum \$20 (applied to battery systems over 24 volts, including but not limited to Golf Carts, Scissor Lifts, Pallet Jacks, etc.).

Commercial Service Call Fee (On-Site):

For Generator, UPS, Switchgear, Emergency Lighting, and related systems. \$195 (includes the first hour of labor/travel; \$100 per hour thereafter).

Service Documentation:

Upon completion of all services, we provide detailed documentation outlining the work performed, including:

- Diagnostic findings (where applicable).
- BMS reset and configuration details.
- Wiring diagrams (if modified).
- Parts replaced (if applicable).
- Labor hours.
- Any relevant observations or recommendations.
